## **FALL MEETING**

The Fairmont Le Château Frontenac, Québec City, Quebec, Canada  
September 23-25, 2010

*In Joint Sponsorship with the Radiological Society of North America*

### **Accreditation and Designation Statement**

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the Radiological Society of North America (RSNA) and the Society of Chairs of Academic Radiology Departments (SCARD). The RSNA is accredited by the ACCME to provide continuing medical education for physicians.

The RSNA designates this educational activity for a maximum of 15.75 *AMA PRA Category 1 Credits<sup>TM</sup>*. Physicians should only claim credit commensurate with the extent of their participation in the activity.

### **Evaluation**

In compliance with the ACCME requirements, you must record your attendance and evaluate the sessions you attend in order to receive AMA PRA Category 1 Credit.

The evaluation instrument is supplied to you at registration in a booklet format. The session evaluations appear in chronologic order. Please write your name, address, and degree(s) in the space provided, and complete the evaluations for the sessions you attend. At the end of the meeting, submit the entire evaluation booklet to the SCARD registration desk. A record of the CME credit earned at this meeting will be mailed to you shortly after the program.

### **Content Codes**

To better help the participants of this CME activity organize their CME records; two-letter content codes will be indicated throughout the program and in the evaluation booklet. The key to the codes follows:

|    |                                    |
|----|------------------------------------|
| HP | Health Policy                      |
| MA | Management                         |
| PR | Professionalism (including Ethics) |

### **Target Audience**

Radiologists holding appointments in academic medical centers and engaged in research and teaching as well as clinical practice.

## Learning Objectives

After completing this educational activity, participants will be able to:

- Understand the organizational and financial challenges that face academic radiology departments.
- Describe how healthcare reform might impact academic radiology.
- Understand how changes at NIH may impact funding for radiology research.
- Become familiar with government rules and regulations regarding ethical, professional, and institutional behavior.
- Describe methods for faculty development and mentoring.
- Understand regulations regarding residency and fellowship training and board certification.
- Share in discussions with other chairs to obtain insight into managerial problems and solutions.

## Disclosure Statements

The Accreditation Council for Continuing Medical Education (ACCME) requires that the Radiological Society of North America (RSNA), as an accredited provider of continuing medical education, obtain signed disclosure statements from meeting faculty, including committee members, program planners, and presenters. The intent of this policy is not to prevent an individual with a financial relationship from participating; however, in accordance with ACCME standards, the RSNA has developed policies and procedures to manage identified conflicts of interest.

The ACCME further requires that the RSNA provide disclosure information to all attendees prior to the educational activity. Faculty who have or have had an affiliation or financial relationship with any commercial interest (within the previous 12 months or at the time the research was conducted) are noted with a star (★) after their name in the program book. Financial disclosure statements for these individuals are reported after each individual's name in the disclosure index. All other individuals have indicated they have nothing to disclose.

This icon indicates discussion of uses not approved by the FDA. The RSNA and SCARD recognize that at scientific meetings faculty may discuss the application of some devices, materials, or pharmaceuticals that are not FDA approved. In keeping with the highest standards of professional integrity and ethics, RSNA and SCARD require that faculty fully disclose to their audience that there will be discussion of the unlabeled use of a commercial product, device, or pharmaceutical that has not been approved for such purpose by the FDA.

***Learning Objectives:***

1. To provide a framework for understanding the change in focus areas for extramural NIH funding under the new directorship of Dr Francis Collins. (e.g... 5 theme areas, applied vs. basic science, infrastructure, industry and FDA relationships). Also the direction of the NCI imaging program under the leadership of Dr Varmus will be explored.

2. To review and provide the foundation for an interactive discussion of the potential funding opportunities and challenges overall and specifically for radiology in this new paradigm.

3. To examine how the maturation of the Clinical and Translational Science Awards and the CTSA Consortium's Imaging Working Group may be leveraged to gain ground translating quantitative imaging to the clinical arena. The impact of other consortia and multi-center networks such as ACRIN will also be discussed.

**Introduction and Survey of SCARD Members Regarding COI and Industrial Relationships**

Faculty: *Manuel L. Brown, MD*

***Learning Objectives:***

1. The attendee will be able to describe the differences in institutional reporting requirements for faculty-industrial relationships.
2. The attendee will be able to describe the various entities that can decide if the amount of compensation is too high from faculty-industrial relationships.
3. The attendee will be able to describe what is involved in being a part of a speakers' bureau.

**Changing Relationships between Industry and Academic Medical Centers**

Faculty: *Carolyn C. Meltzer, MD*

***Learning Objectives:***

1. Understand the rationale for the appropriate management of conflicts of interest in an academic medical center.
2. Appreciate how different organizations in one academic medical center managed integration of policies related to COI.
3. Consider altering local practice based on examples of conflict resolution.

**The Economics of Academic Radiology  
Departments' Contributions to the Field  
of Radiology**

AMA PRA Category 1 Credit: 2.0

Moderator: *Steven E. Seltzer, MD*

Faculty: *Andrew R. Menard, JD ★*

*Learning Objectives:*

1. Enable SCARD members to understand and estimate the cost of the volunteer work force provided by academic departments to radiology's national organizations (e.g., RSNA, ACR, ARRS) in order to balance this cost with the benefits provided to SCARD members.
2. Specify and discuss the components of this cost, including the time spent by SCARD department members on national organization activities, the travel expenses underwritten by SCARD departments, and other direct or indirect subsidies to those organizations.
3. Understand the impact of this cost in light of the financial pressures, cost cutting initiatives, and competing priorities affecting academic radiology departments.
