New & Prospective Chair Orientation Program

Sunday, October 10 – Monday, October 11, 2004

Hyatt Regency Bethesda, Bethesda, Maryland

In joint sponsorship with the Radiological Society of North America

Accreditation and Designation

Statement

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the Radiological Society of North America (RSNA) and the Society of Chairmen of Academic Radiology Departments (SCARD). The RSNA is accredited by the ACCME to provide continuing medical education for physicians.

The RSNA designates this educational activity for a maximum of 7.0 category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the educational activity.

Evaluation

In compliance with the ACCME requirements, you must record your attendance and evaluate the sessions you attend in order to receive category 1 CME credit.

The evaluation instrument is supplied to you at registration in a booklet format. The session evaluations appear in chronologic order. Please write your name and address in the space provided, and complete the evaluations for the sessions you attend. At the end of the meeting, submit this completed evaluation booklet to the SCARD registration desk. A record of the CME credit earned at this meeting will be mailed to you 6-8 weeks after the meeting.

Content Codes

To better help the participants of this CME activity organize their CME records, two-letter content codes have been indicated throughout the program. The content code for all sessions has been designated as [HP]- Health Policy/Management/Informatics.

Target Audience

This two-day course is designed for newly appointed chairs (less than 2 years), for senior faculty who aspire to become chair of an academic radiology department and for junior faculty curious to know more about what a chair's responsibility encompasses.

Learning Objectives

At the completion of this meeting, participants should be able to: Understand the strategic imperatives affecting the position of Radiology chair • Become familiar with methodologies and principles affecting the capturing, retention, and expansion of clinical income • Learn about the impress of new regulations on the chair's freedom of action and attention to departmental protection • Gain insight into stratagems for program and faculty development.

Disclosure Statements

RSNA, as an accredited provider of continuing medical education, must obtain signed disclosure statements from faculty at the SCARD Fall Meeting and New and Prospective Chair Orientation programs. Disclosures for presenters, who have or have had an affiliation or financial relationship with companies or organizations about whose products or services they are reporting (within the previous 12 months or at the time the research was conducted), are included at the end of the session description. A star indicates the presenters had nothing to disclose. A triangle indicates disclosure information was unavailable at press time.

This icon indicates discussion of uses not approved by the FDA. The RSNA and SCARD recognize that at scientific meetings faculty may discuss the application of some devices, materials, or pharmaceuticals that are not FDA approved. In keeping with the highest standards of professional integrity and ethics, RSNA and SCARD require that faculty fully disclose to their audience that there will be discussion of the unlabeled use of a commercial product, device, or pharmaceutical that has not been approved for such purpose by the FDA.

Financial and FDA off-label disclosure information submitted after the printing of the SCARD Fall Meeting program will be available onsite. A list of those authors failing to submit signed disclosure statements prior to the meeting will also be available onsite.
